Innovative leader with a decade of experience and a passion for machine learning.

EXPERIENCE

U.S MARINE CORPS

Program Manager

Baghdad, Iraq (2023-2024)

- Became the go-to expert for multiple general officers after synthesizing 9 years of disparate data for the first time, directly enhancing their decision-making ability.
- Increased capabilities of Iraq's most-trusted military force through expert management of a \$94M foreign military sales program, fostering stronger U.S.-Iraq relations and bolstering regional stability.
- Coordinated high-impact initiatives between the Department of State and Department of Defense, amplifying U.S. influence and operational success across Iraq and Syria.
- Facilitated force generation, communication infrastructure, and intelligence capabilities, strengthening the strategic partnership with Iraq's Counter Terrorism Service.

Exchange Officer

Seoul, South Korea (2020-2023)

- Selected as 1 of 2 officers for a prestigious cultural immersion program, fostering strong international relations through advanced language acquisition and a Master's degree.

Company Commander and Supply Officer

Okinawa, Japan (2020)

- Exceeded expectations while concurrently fulfilling two demanding roles typically assigned to more senior officers, demonstrating superior leadership and logistical expertise.
- Successfully led a company of 100+ Marines and managed \$1.6M in equipment during the FREEDOM BANNER and BALIKATAN exercises in the Philippines, managing \$1.6M in equipment, coordinating \$192K in contracted services, and expediting 188 parts while deployed.

Logistics/Finance Officer

Okinawa, Japan (2016-2020)

- Consistently recognized as a top-ranking lieutenant by managing \$102M in assets, surpassing fiscal targets, and excelling during inspections, contributing to the unit's operational readiness.
- Coordinated a rapid deployment to Guam, ensuring supply chain efficiency, resulting in a successful COVID-19 relief mission within 96 hours.

JOHNS HOPKINS SCHOOL OF MEDICINE

Researcher, Organ Transplantation

Baltimore, MD (2015)

- Presented insights on large datasets in order to better optimize the allocation of livers for transplantation.

REEFPPOINT GROUP

Data Scientist, Emergency Medicine

Annapolis, MD (2014)

- Conducted field experiments and recommended procedural changes to improve ER treatment timelines.

EDUCATION

SOGANG UNIVERSITY

Master of International Studies; Major in East Asian Studies

Seoul, South Korea ('21-'23)

U. S. NAVAL ACADEMY

Bachelor of Science, Major in Operations Research; Minor in French

Annapolis, MD ('12-'16)

- 3.93 GPA | Top 6%
- Awards: INFORMS Society Prize, LCDR Maas Prize
